Mohammed Safwan

B.Tech Student in Artificial Intelligence and Data Science

8943847906 mohammedsafwank451@gmail.com Mohammed Safwan Tirur, India

INTERNSHIP

Intern | Internship — Apr 2024 - May 2024

TechbyHeart — *On-site • Kottakkal*

- Conducted detailed vulnerability analysis of 5+ web applications using Nessus.
- Acquired practical knowledge in 10+ core OSINT techniques for information gathering.
- Gained foundational hands-on skills in cybersecurity frameworks and Kali Linux tools.

Technologies Used : *Nessus, Kali Linux*

PROJECTS

Ai Virtual Controller | Github — 2024 - 2025

Developer

- Developed a real-time hand gesture controller to replace physical peripherals, mapping five core system functions.
- Enabled control of volume, brightness, and mouse functions through hand gestures.

Tools Used : *Python, OpenCV, MediaPipe, TensorFlow, PyAutoGUI*

Stock Market Prediction | Github — 2025 - 2025

Developer

- Built a time-series forecasting dashboard using Streamlit and Plotly to visualize stock trends.
- Integrated the Yahoo Finance API for real-time data and applied Prophet and Scikit-learn for predictions.
- Containerized the application using Docker for clean deployment.

Tools Used : *Streamlit, yfinance, Pandas, NumPy, Prophet, Scikit-learn, Joblib, Plotly*

Mask Detection — 2024 - 2025

Developer

- Developed a real-time face mask detection system using OpenCV, TensorFlow, and Keras
- Utilized deep learning (CNN models) to classify masked and unmasked faces with high accuracy
- Implemented the system in real-time using a webcam for live detection
- Collected and preprocessed labeled datasets containing images of masked and unmasked faces

Tools Used : *OpenCV, TensorFlow, Keras*

Animal Recognition — 2023 - 2024

Research & Planning Lead

- Developed a CNN model for animal recognition
- Achieved 85% accuracy on Animal 10 dataset
- Identify animal images from different angles in the Animal-10 dataset

Tools Used : *Python, OpenCV, TensorFlow, Keras*

SKILLS

Frameworks & Libraries :	TensorFlow, OpenCV, Scikit-learn, Keras, React, Node.js, Django, NestJS, Next.js, Angular, Flask
Languages :	English, Malayalam, Hindi, Arabic
Programming Languages :	Python, C, C++, SQL, R, JavaScript, C#, Kotlin
Soft Skills :	Teamwork, Leadership, People Management, Collaboration, Decision Making
Tools & Platforms :	HTML, CSS, GitHub, Linux, Docker, Kubernetes

EDUCATIONS

KMCT Institute of Technology and Management | Kuttippuram — Aug 2025 - 2028
B.Tech in Artificial Intelligence and Data Science
Studying machine learning and data science helps build smart systems for real-world challenges.

Sree Narayana Institute of Technology | Adoor — Aug 2023 - May 2025
Diploma in Artificial Intelligence and Machine Learning — *CGPA : 7.45*
I gained a solid understanding of basic computing, data structures, and the math behind AI and machine learning.
I also gained hands-on experience through school projects that focused on predictive modeling and computer vision.

Government Higher Secondary School | Niramaruthur, Malappuram — Jun 2021 - Mar 2023
Higher Secondary Education — *Percentage : 68*
- Computer Science Education completed

P. K. M. M. H. S. S | Kottakkal, Malappuram — Jun 2020 - Mar 2021
Secondary Education — *Grade : 7 A+*
- SSLC (10th) Education completed

ACHIEVEMENTS

- **Young Innovative Program**
- Machine Learning & Generative AI
- Kerala Knowledge Economy Mission
- Python Intern Developer
- Inker Robotics
- One Million Prompters
- Ai Appreciate & Ai Aware
